

Connecting to eduroam using Android

Automatic configuration using the eduroamCAT application

The [eduroamCAT application](#) is available on the Google Play Store, and will use the configuration settings file to set up your device.

Install the app and once opened, it will search for eduroam Profiles near you. Select 'Eastleigh College' > 'Install'.

When prompted for your College username and password, enter your username in the format username@eastleigh.ac.uk

Connecting manually

If you experience issues with the auto configuration above, you can connect to the eduroam Wi-Fi manually using the following instructions -

1. Select Settings > Network & Internet > Wi-Fi
2. Select 'eduroam' from the list of available wireless networks.
3. Enter the following settings -
4. EAP method: PEAP
5. Phase 2 authentication: MSCHAPv2
6. CA certificates: Do not validate
7. Username or Identity: Your College username@eastleigh.ac.uk
8. Anonymous Identity: Leave blank
9. Password: Your College password
10. Select Connect

You will now be able to browse the internet from your device using the eduroam Wi-Fi.
